**BOSTON** –WorldCare International, Inc. (WorldCare), has partnered with HTH Worldwide to offer a new service, *WorldCare ABROAD*, to clients and members worldwide. The service is one of the many new services recently added to WorldCare’s spectrum of services, which address clients’ and members’ continuum of care needs.

*WorldCare ABROAD* is available through employers, insurers, brokers and Third-Party Administrators as a benefit plan component, as part of an insurance policy or on a stand-alone basis. The service provides members with access to quality medical care and resources while traveling. Through *WorldCare ABROAD*, members have fast, easy access to travel assistance and information and exclusive, fully-vetted physicians. Members take along *WorldCare Go*, a convenient downloadable mobile app, which allows them to access medical and safety resources for each destination on their itinerary. Drawing on HTH Worldwide’s rich destination health databases, *WorldCare Go* covers the globe with international search and information functionality for doctors, hospitals and pharmacies, along with city and country security content, embassy information and translations for medical terms, drugs and drug equivalencies.

Hassan S. Sharif, President and Chief Operating Officer of WorldCare shared, “Our partnership with HTH Worldwide is just one of the ways we are exploring how best to continue to provide access to a wide-array of healthcare services that truly address our client’s and member’s needs and make a difference in their medical outcomes. Our mission to improve the quality of health care worldwide by maximizing timely, efficient and strategic access to the best in health care means seeking out partners, such as HTH Worldwide, who share our vision and offer services that fit into our model. *WorldCare ABROAD* does just this and we are excited about our partnership.”

“At HTH Worldwide, we have a long track record of providing travelers with the most convenient access to medical care across the globe,” said Alex Wood, Managing Director for HTH Worldwide. “We are proud to have built the *WorldCare Go* app because it enables world travelers to go abroad confidently; knowing that access to the vital medical care and support they need is as close as their mobile device.”
