BOSTON – WorldCare International, Inc. (WorldCare), has partnered with Communitas, Inc., providers of OnSIGHT Health, to offer *WorldCare ONSIGHT*, to clients and members worldwide. One of the many new offerings recently added to WorldCare’s spectrum of services, this innovative new product provides a new way for us to address clients’ and members’ continuum of care needs.

WorldCare ONSIGHT is available through employers, insurers, brokers and third party administrators as a benefit plan component, as part of an insurance policy or as a stand-alone service. The service provides members with access to a certified RN case manager who will assist with the coordination, management and financial negotiations needed when a member is facing a catastrophic medical diagnosis. Through *WorldCare ONSIGHT*, members receive advocacy and support by highly-trained, certified RN case managers. Members’ care will be facilitated through coordination and communication with their healthcare providers. Coordination and negotiation of clinical resources needed upon returning home will also be handled by an RN case manager. The service provides members with access to community resources and educational information as well as an assessment of family and home dynamics used to identify potential needs before a member returns home. An RN case manager will also communicate with members’ insurance providers and benefit plans to ensure that benefit dollars are maximized in the most beneficial way.

Hassan S. Sharif, President and Chief Operating Officer of WorldCare shared, “We are delighted to announce our strategic partnership with Communitas to offer the *WorldCare ONSIGHT* health service. This is just another step in our mission to build a full spectrum of services that address both our clients’ and members’ needs. With partners like Communitas, we will continue to evolve to meet the ever-changing demands of the healthcare industry.”

“We are excited to partner with WorldCare, a recognized leader in helping members make more informed medical decisions,” added Dwight Mankin, President of Communitas, Inc. “By combining our innovative OnSIGHT Health program with WorldCare’s service offering, we will bring a unique and much-needed solution to the marketplace. Healthcare has become more complex than ever, so it’s imperative that we think outside of the box, working proactively to truly make a difference in the quality of members’ lives.”

WorldCare's mission is to improve the quality of healthcare worldwide by maximizing timely, efficient and strategic access to the best in healthcare. For more than 20 years, WorldCare has empowered members and physicians in 45 countries with the clinical information and resources needed to make more informed medical decisions.
