

Quality

We are the only organization with a strategic, technological and operational relationship with top-ranked teaching and research hospitals in North America, The WorldCare Consortium®. With more than 18,000 specialists and sub-specialists who have access to more than \$3.5 billion dollars in annual biomedical research funding, the Consortium® is unmatched in the depth and breadth of its medical expertise. Each member institution stands behind the second opinions they provide because they are confident in the medical expertise of their specialists.

Depth

Our ability to provide you with access to these teams of specialists at Consortium® facilities is one of the many reasons why we stand apart. Because of the team's combined depth of knowledge, knowledge that an individual physician cannot possibly possess on their own, you can be confident every aspect of your case has been considered. This gives you the reassurance needed to make medical decisions with confidence. In addition to our relationship with the Consortium®, we also have a larger network of the very best quality institutions and physicians worldwide.

Technology

Couple all of this with technology that enables us to send cases directly past the hospitals firewalls and into their daily workflow, ensuring quick turnaround times. Plus, we have the ability to send cases to more than one institution simultaneously for multiple opinions when necessary.

Experience

Simply put, we have been doing second opinions for longer than anyone else. And we are continually improving our process to provide excellent medical opinions, superior customer service and flexibility; clearly setting us apart.

Health

For more than 22 years we have been committed to improving the quality of health care worldwide by maximizing timely, efficient and strategic access to the world's best health care. We have leveraged our award-winning capabilities and revolutionary technology to provide unparalleled service and expertise. Nimble and efficient, we offer customized services to meet the unique needs of our clients and members worldwide.

We deliver highly-specialized, personalized services by leveraging our unique contractual relationship with the WorldCare Consortium® institutions, as well as relationships with other high-quality clinicians and medical institutions globally. We pioneered the multi-disciplinary, multi-institutional second opinion process in 1994 and have come a long way over the past twenty years, while continuing to be the leader in global health care solutions.

With operations worldwide, our services are available through employers, health plans and insurers and cover the full continuum of care. Through our unique relationship with top-ranked hospitals, we are able to provide services ranging from answering basic medical questions, confirming diagnosis, providing treatment plan guidance and much more.
