BOSTON — WorldCare International, Inc. (WorldCare) has been recognized by *Healthcare Tech Outlook* magazine as one of the Top 10 Most Promising Telemedicine Solution Providers in 2017. WorldCare's institution-based remote medical second opinions have utilized telemedicine technology in order to improve healthcare outcomes of members worldwide for over 24 years. Today, WorldCare is able to provide telemedicine services in over 40 countries around the world, connecting millions of members with leading medical specialists and subspecialists of The WorldCare Consortium® hospitals, which include the top-ranked research and academic medical centers in North America.

"WorldCare is honored to be recognized as one of 2017's most promising telemedicine solution providers," stated Nasser Menhall, Chief Executive Officer, WorldCare. "For nearly a quarter of a century, we've been dedicated to improving medical outcomes worldwide by leveraging our expansive telemedicine network in order to provide the highest quality medical second opinions, with an unmatched level of clinical expertise and rigor. For 2017, we continue striving to improve outcomes by expanding the range and scope of our telemedicine second opinion services."

###

About WorldCare International, Inc.

WorldCare's mission is to improve healthcare outcomes of patients worldwide by connecting our clients to the foremost medical experts at top-ranked U.S. hospitals. WorldCare fulfills its mission by using a unique disease management approach, which digitally recreates the experience of a patient walking into the leading medical institutions in the United States, providing the highest-touch coaching, virtual medical solutions and services available worldwide.
